

## Home Learning Grid

Here are home learning activities for you to do this term.

Please complete any three of the activities. These activities link to your "Project" learning.

You will be expected to apply different areas of your learning to these tasks and, as always, your work should be of an excellent standard.

Bring your homework into school and share on these dates:

Tuesday 19<sup>th</sup> September and Wednesday 11<sup>th</sup> October

Homework sharing will take place between 3 and 3.30pm. Parents are welcome to come and celebrate the home learning with us.

<p>English: Write a poem or prayer with the theme of Harvest/Autumn. This should be handwritten in your best writing and can be any style of poem. You could decorate your poem with drawings or a natural collage.</p>	<p>Science: Carry out a survey of different species of trees in a local park or gardens. You could record your information as a table, chart or with photographs and notes.</p>	<p>Geography: Choose a different country anywhere in the world. Find out about what type of government they have (e.g democracy), who rules the country, how many people live there, what products do they export. Choose how you present your information.</p>
<p>Maths: Design and make a game to help learn your times tables and related division facts. You need to include instructions on how to play your game.</p>	<p>Art: Paint or draw a natural object. E.g a collection of seeds, leaves, trees, insect home etc....</p>	<p>Computing: create a presentation from photographs of different plant groups and add text labels or narration to describe their different features.</p>
