

Amethyst Class Newsletter

Our learning this week....

Survive or Thrive?

Maths

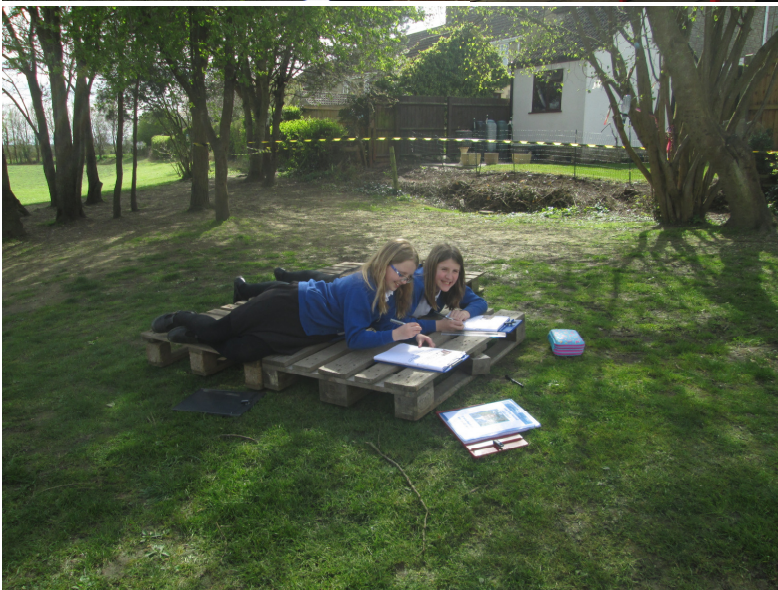

Revision of topics that the children have identified as weak areas: temperature, negative numbers, using times tables and calculating time intervals and rounding.

English

Final editing and last redrafting of some sections of our suspense stories. Learning about past, present and future perfect tense.

Review of Survive or Thrive project

The children have written reviews of the project and considered the positive and negative aspects of being a child in WW2. The children have enjoyed learning outside in the sunshine this week!

Easter Holidays Home Learning....

I am sending home a Maths and a SPAG paper for the children to do. If they could do them independently first and then check through with an adult at home that would be great! I hope everyone has a lovely break with their family and enjoys a well-earned rest!
