Amethyst Class Newsletter

Our learning this week...

English

The children have finished their stories and taken time to make changes to improve them- hopefully you will get a chance to read them when you come to parent's evening.

Maths

We have moved on to division. The children have been applying previous skills of solving problems with division and learning efficient pen and paper methods.

Project-Geography focus

Does where you live in the world effect how fair life is? What is a fair trade chocolate bar/ fairtrade banana?

We have been looking at the Fair Trade foundation and how it works to secure fairer prices and working conditions for people growing many of our household ingredients. The children decided we should have a challenge to see how many fair trade products we could try at home, bring in the labels and see if we can make the words 'FairTrade' out of the labels/stickers! If you could support them with trying some Fairtrade items that would be great! They have also decided they want a tasting session, where they compare ingredients from non- fairtrade with Fair trade (an excuse to eat chocolate I think!). I will make sure I get permission from you before any lessons involving eating happen.
