

Amethyst Newsletter – 7th July 2017

Our learning this week....

Quarry Visit

The children had an interesting visit to Wickwar Quarry. We learnt about the dangers of quarries and why they should not be tempted to play there or swim in the lakes. The children got to see the working quarry in action (including a ride around in a huge dumper truck!). They also had an interesting geological talk about rock types and got to see some amazing fossils and minerals found at the quarry.

Circus Skills

As part of our Year of sport the whole school had a circus skills day on Tuesday. The children learnt how plate spin, balance feathers and do tricks with a diabolo. Please get your tickets for Happy's Circus on 20th July.

Next Week...

Monday

Inset day

Wednesday

The last homework share-I am looking forward to seeing the remaining Morfa Bay diaries.

History

Share Viking projects with the class.

Maths

Calculator problem solving-getting used to using equipment used at KS3.
