Amethyst Class Newsletter

Our learning this week...

English

The stories are shaping up very well. Many of the children have created atmosphere really well, with detailed descriptions for settings and characters.

SPAG-We have been investigating homophones this week; trying to find ways to help us remember which ones to use.

Maths

We have moved on to multiplication. The children have all secured the method of long multiplication and have now been applying this knowledge to solving problems and answering a range of questions.

Many of the children have been working hard to improve their recall of times tables. This is vital to most areas of Maths, please help your child to learn these vital number facts. Daily practise is the way forward if your child is still a little slow.

P.E

In gymnastics, the children have been combining their learning from the previous weeks' lessons to put together sequences. They have worked in pairs to choreograph a gymnastic sequence that includes balances, rolls and jumps-using floor and apparatus.
