

Amethyst Class Newsletter

Our learning this week....

English- The stories have been finished and marked by Mrs Brooks and with a peer. The children are busy redrafting and editing the final bits.

Maths- We have moved on to multiplication and have written a WAGOLL for how to do short and long multiplication.

Project- The children are in political parties! This has caused great excitement and they have planned their campaign ideas, designed a logo, chosen a colour and even written value statements and mottos!

Celebrations...

Teacher's Award this week goes to Eloise Horne for excellent Maths skills.

Next week....

English- Write a manifesto and political party material-persuasive writing.

Maths- Multiplication and division

Project- Continue with planning campaign and write party political broadcasts!

Reminders.....

There were a number of children who forgot to do Mathletics this week...please complete by Wednesday. This is vital as I have linked tasks directly with class learning and test expectations.
