

Amethyst Class Newsletter

Our learning this week....

Survive or Thrive?

Maths

The children have learnt how to identify different parts of a circle. They have also been solving problems with co-ordinates in 4 quadrants.

English

The children have been finishing their writing of an extended narrative set in WW2. They have worked together to proof read each other's work. I will be busy over half term reading them all!

Internet Safety Week

This week's focus was on sharing images. We discussed online reputation and how it is important to think carefully before sharing any images online. We talked about social media sites and how it is hard to get rid of any messages or images posted on these sites. Many children admitted to already using these sites and we talked about the importance of sharing any posts they or friends make with their parents, as they are actually below the age limit set for social media platforms.

Peer Groups

The children will be leading their next session on Friday and have planned a short session linked to 'ecoschool'.

Next week....

Home learning for Half Term.

Reading-daily reading, recorded in their home school diary would be recommended-this can be any book at home or maybe books on the BugClub website. Maybe a visit to the local library on a wet afternoon!

Maths-An assessment has been set on Mathematics.

SPAG-Children will be bringing home a SPAG paper to try, please return on the Monday after half-term.

Safer
Internet
Day 2017 | Tuesday
7 February

Be the change: Unite for a better internet
