Our learning this week....

What Makes Us Richer?

Growth Mindset and Aspirations

Aspirations Week- We have had an inspirational week with workshops from Tom Robson and Andy Cope. Dr Tom told us all about harnessing our 'Emerald Power' so that we feel able to push ourselves out of our comfort zone and develop resilience when things go wrong.

Andy Cope (author of Spy Pups series and scientist) worked with year 5 and 6 on the 'Art of Being Brilliant'. He talked to us about being positive and gave us lots of top tips of changes we can make in our lives so we feel more positive. He also talked about having goals to aspire to and how this can be broken down into little steps starting with today!

Thursday the children all dressed up as their future self. The costumes were fantastic and certainly helped them plan an aspirations pyramid.

Tomorrow we look forward to welcoming 2 parents into school: Mrs Bamford and Mrs Holcombe to talk about what their careers entail.

Next week....

What Makes Us Richer?

Enterprise

Next week we will launch our enterprise topic with a scrap challenge and then getting into business teams to start researching ideas for a product.

Reminders.....

Please can the children bring in empty cardboard boxes, plastic bottles to use for a D/T challenge!
