

# Diamond Class Newsletter

23.09.16

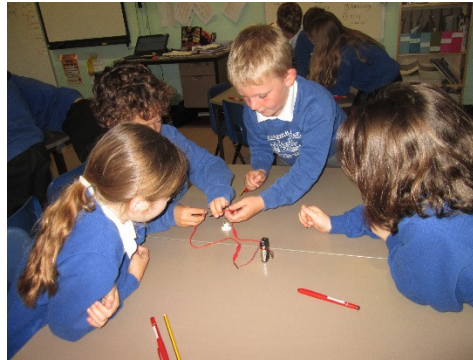

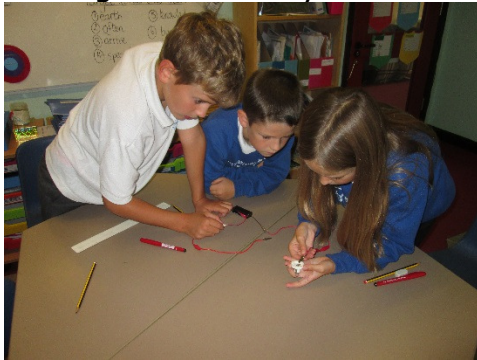

## Our Learning this week :

We have been hugely busy this week.

We started learning how to play samba rhythms in music on Tuesday,

investigated electricity and circuits in Science

and linked our maths learning on measurement with cookery skills whilst making the biscuits for our Tea Party on Thursday.

Thank you all for coming to our home learning share and of course to the Tea party too. I know the children have been very excited about sharing these events with you, and I'm sure you'll agree that the level of creativity and standard of the home learning was excellent.

## Our learning next week:

English – instructional writing - recipes

Maths –place value and rounding to the nearest 10, 100, 1000.

## Reminders :

- Harvest is on Tuesday – don't forget your spare tins and packets!
- Trip money is due in and as we will be walking around Bristol we need as many helpers as possible –we especially need some dad's to volunteer too.
