

Diamond Class Newsletter 19.05.17

This week:

We have concentrated on trying to complete our independent learning – we chose an animal we would like to research and then planned to present it creatively. E, J and T researched foxes and they were able to select relevant information using both their reading and computing skills.

Despite the dreadful weather this week (which hindered our gardening plans), we were eventually able to start clearing the flowerbed in front of Diamond Class and transfer some of our strawberry plants from pots into the bed. This is still very much work in progress and we plan to continue on Monday morning (weather permitting). If you fancy a bit of weeding and planting please come along – your help would be very much appreciated.

Next week:

We are having a History focussed week where the children will be learning about life in the Stone Age to Iron Age. We are very fortunate to have secured a practical workshop on Tuesday which will allow the children to fully immerse themselves in the era. We plan to be outdoors whatever the weather so please send in suitable clothing in a carrier bag - old joggers/leggings and suitable footwear which you don't mind getting dirty, raincoats /sunhats. The plan is that children come to school in their uniform as normal and they will change in school. If you haven't already done so, please could you pop the £3 into school by Monday as this covers the cost of the materials the children will be using –Thank you.

Mrs Moncrieff
