Diamond Class Newsletter

We had a brilliant walk around Wickwar, learning about the history of the area, visiting the brewery, church, old school, town hall and buthay, learning about how many of these areas link to our school today. After our history walk, we spent some time collecting data on the traffic in Wickwar as part of our geographical fieldwork. Once back in the classroom, we put the data collected into graphs, using computing skills.

In PE, we have begun practising skills in preparation for Sports Day at the end of the term, working on running, jumping and throwing.

Next week we will be completing another practise multiplication check on TTRS so that we can target those times tables that we still need to work on. We are also able to have a look at and try out the official multiplication check from this week so we will have a go several times leading up to the check window at the start of term 6.

<p>Coming up next week - Learning</p> <p>In Maths, we will be focusing on time: reading, writing and converting between analogue and digital 12hr and 24hr clocks.</p> <p>In English, we will be writing in character through informal letters and diaries.</p>	<p>Way to support at home</p> <p>Read at least 5 times a week. Please ensure reading is recorded in the reading record books each week.</p> <p>Mathletics – some children still have several outstanding pieces of home learning on mathletics.</p> <p>TTRS or other times tables practise.</p>
