

Emerald Class Newsletter

9.6.2017 – Term 6

What have we been learning?

This week the children have written superb recounts of their holidays and it sure sounds like they have all had a lovely break! The children have redrafted and improved their brachiosaurus drawings in their sketch books following feedback from peer critique.

The children have started learning different dribbling skills using a football this week with Mrs Barry, keeping the ball under control and close to their feet.

As part of our measuring this week we have recapped what volume is and used our scientific/mathematic skills to measure the liquid in millilitres and litres.

Next Week

The children will be re-writing a story linked to being a carpenter to get started with designing and planning for photo frames. Also we will be continuing with geometry and the position of shapes using whole, half, quarter and three quarter turns.

Dates for you Diary

School photographs – Tuesday 13th June

Emerald Talent Show – 14th July at 9:30 – invitations will be coming home from the children!
