

Emerald Class Newsletter

27.01.2017 – Term 3

What have we been learning?

This week the children have written their non-fiction fact files about different animals, which will be made into book as the children would like to put it in the library to share with the school. In PE the children have focused on skills to throw underarm accurately.

Also the children have been exploring division to see which is the best method for them so they can make progress.

The children investigated thick and thin pencils which create dark and light lines by drawing a portrait of Christiaan Huygens, the inventor of the pendulum clock. The children have peer critiqued and redrafted, improving their drawings further so there is a big difference from their first attempt.

We revisited the groupings of animals according to different characteristics, as Tweedle Dee and Tweedle Dum had mixed up all the characteristics by dropping them around the room! To improve our computing skills this week, we have written algorithms for other children to follow to input into a program to create a shape.

Next Week

Continue with division.

Helping to find the Cheshire cat by writing descriptive missing posters.

Designing our own clocks!

Dates for your diary

NSPCC Number Day – 2nd
February 2017

Learning Journal visit – 3rd
February 2017 and 7th February
2017
