

Emerald Class Newsletter

19.05.2017 – Term 5

What have we been learning?

Emerald class have been palaeontologists this week researching about the brachiosaurus and writing up reports to send to the world famous Jack Horner! The children have created their own skeleton bones of the brachiosaurus using the skills of collage like Megan Coyle.

Furthermore the children have accurately weighed (using grams and kilograms) the different tools that a palaeontologist might need to dig up or gather bones. Also, as the brachiosaurus were herbivores, we thought about what plants we know, and learnt about the importance of plants in the world.

The children thoroughly enjoyed the skipping event today, learning new skills like double spinning and the cross over.

Next Week

We will be revisiting capacity and volume. In computing we will be taking photos and recording our drumming chants. We will be taking on the role of a cartographer creating our own maps with a key.

Dates for you Diary

Emerald Talent Show – 14th July at 9:30 – invitations will be coming home from the children!
