15.09.2017 – Term 1

What have we been learning?

This week the children had their WOW day to really get going with our project. We had a special guest called John, who was a submariner, who shared all he knows about the submarine. The children asked amazing inquisitive questions which has helped them to start their first part of their training to be a submariner before going on a voyage to other countries. Also in the day the children became sea creatures, played pin the fin on the shark, feed the dolphins, shark attack and more.

The children have been exploring tens and ones in numbers to gain an understanding of place value. They also started a dance of sea creatures in PE using control and coordination to music.

Next Week

We are continuing to look at the different features of animal groups and exploring human and physical features of the land. To inspire the children's writing we will be looking into the Lighthouse Keeper books.

Dates for you Diary

Tom Robson – 1st November
