

# Jet Class Newsletter

## 30.9.16 – Term 1

### What have we been learning?

Jet Class enjoyed the harvest service at church and the children reading their harvest poems all did amazingly well.

This week we have been continuing to design our moon buggies for NASA, they have been busy peer critiquing each other's designs and are now ready to start testing materials to construct different parts of their moon buggy.

In maths we have been exploring all the different combinations we could find to partition two digit numbers and have moved onto using our knowledge of place value to add numbers to 100.

### What's happening next week?

We will be writing our character description of Bob on the moon, this will involve peer critiquing and editing our own learning.

We will be beginning to construct the chassis for our moon buggies in DT using a variety of tools.

We are very excited about our trip to @Bristol next Thursday and on our return we will be writing a detailed recount.

### Reminders

McMillan Coffee morning on Friday 30<sup>th</sup> September – Jet class will be sharing some of our harvest poems and singing a harvest song.

Spelling books have come this week, the children will be tested on a Thursday, however due to our trip next week, they will be tested next Friday (7<sup>th</sup> October).

To clarify - the common exception words in the yellow home learning books are words the children need to be able to read and in the small green spelling books are the words children need to spell. Hope this helps.

Our class trip to @Bristol is on Thursday 6<sup>th</sup> October.
