

Jet Class Newsletter

09.09.2016 – Term 1

What have we been learning?

What a super first week in Jet class, the children have all started with a positive and enthusiastic attitude to being in Year 2 and they were certainly impressed with our space themed classroom - have they told you about it?

The week got off to a very exciting start, with our visit to the space dome. The children all loved their time in there and meeting Astronaut George, who helped them to find out about space and the planets. They used their experiences in the dome, to show us their fantastic writing skills to write a recount. We were very impressed with their first piece of writing.

Together as a class, we thought about our class rules for the year, we came up with lots of positive behaviours that we would like to see in Jet class, and Miss Pursey and Mrs Cleverley look forward to seeing these in action - everyday!

Next Week

Next week, in Jet class, we will be looking at positional language to move our space rockets around the planets. As well as looking at our addition skills in Maths.

In English, we will be thinking about using adjectives to describe a range of space vehicles.

We will link together the space vehicles with our Science learning, to think about the materials used in the vehicles and why they were chosen.

Dates for your diary

Next Thursday, there is the chance to come and meet Miss Pursey and Mrs Cleverley at 'Meet the teacher'. We look forward to seeing you all in Jet classroom at 3:40pm. You will need to come in through the main school entrance.

Have a great weekend!
