

## Jet Class Newsletter

The children have had a fantastic week that has been full of lots of practical learning. In Science we have been investigating the difference between seeds and bulbs linked to our topic on plants. We then went on to think about how plants are essential for human life. We linked our learning back to last term's topic on living things and thought about how all food chains start with plants. We then went on to think about how our fruit, vegetables and seeds come from all different parts of the plant.

In ICT we have been developing our photography skills to edit pictures to change the tone of our pictures. We have also edited to add text to a picture. We will be creating Easter cards next week using our photographs.

### **Dates for your diary!**

Tuesday 26<sup>th</sup> March:

**Recorder Assembly** - 2.50 - 3.15

**Easter Biscuit Sale** - Mrs Helyar will be selling biscuits the children have decorated in support of Action Aid

**Parents Evening** - Tuesday 26<sup>th</sup> and Wednesday 27<sup>th</sup> March

Please wander down to The Hive when you come for your appointment to look at our Learning Exhibition

Coming up next week	Ways to support at home
<p>We will be writing Fact Files about Mumbai drawing on our knowledge learnt from our topic this term.</p> <p>In English we will be innovating poems based on the poem The Magic Box by Kit Wright</p>	<p>Thank you for the fantastic pieces of home learning on India we have had so far. The children are so proud when they are showing their homework to their classmates. We will continue to study India up until the Easter holidays so there is lots of time to still complete.</p>
