

Jet Class Newsletter

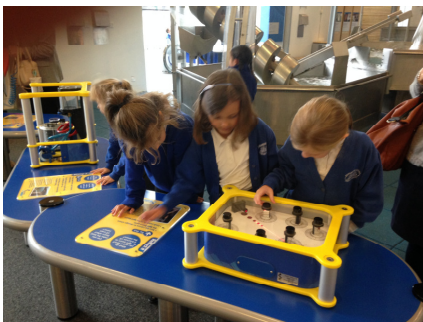

7.10.16 – Term 1

What have we been learning?

Jet class loved their trip to @Bristol on Thursday. We learnt lots of interesting facts about space in our 'Destination Space' workshop. We had to carry out lots of different tasks to help Tim Peake, including constructing our own rockets to fly, investigating gravity and exploring materials and their uses.

Take a look at how much fun we had!

What's happening next week?

Next week we are going to be letter writing about our trip to @Bristol; hopefully we will remember all the exciting things we did.

We will be constructing our moon buggies using various tools to saw, cut and join materials.

We will continue to develop our addition skills, adding two digit numbers and one and two digit numbers and tens.

Reminders

Thank you for your support with your child's home learning, please continue to support them weekly with the learning we send home.

The children will be tested on their spellings on Friday 7th October due to the @Bristol trip so new spellings will come home on Monday 10th October.

Open afternoon– Friday 14th October @ 2.45
