What have we been learning?

Over the last few weeks, we have been set a computing challenge. We needed to use the different tools available on Microsoft Paint to make a comic strip of the Jungle Book.

We then all looked at our friend's comic and gave them warm and cool feedback. Following the suggestions our friends made about our comic strip, we then went back into the computer suite and used these suggestions to edit and improve one of our pieces.

In Maths, we have been counting forward and backwards in 2's, 5's and 10's. Maybe you could continue to practise this with your child at home. Give them a starting number and see if they can mentally count on in either 2, 5 or 10.

Next Week

In English, we are going to be using our story plans to write our story. It will include a build-up, problem and resolution.

In Maths, we will be looking at the different coins and solving some problems using them.

Other News

Open Afternoons are next week on Monday and Thursday. Please come into school through the main entrance. Open afternoon will be between 3-3:25pm. From next week, your child will need to learn spellings from their spelling book.
