What have we been learning?

Jet class have moved onto the continent of North America this week. We have been busy writing animal riddles using curious clues. I wonder if you will guess our animal riddles.

We have been developing our understanding of pattern through art and maths. We have created our own native American headbands using repeating patterns. First we designed our patterns and then cut out the shapes we needed from foam using craft knives to create stamps. We used the stamps to print our patterns onto our headbands and added some colourful feathers. They look fantastic!

Next Week

We hope you all have a lovely half term. The children have been set home learning on mathletics including a practice SATS reasoning paper.

They have also been allocated two new books on Bug club for you to enjoy over the holidays.

Please support your child with their home learning in both reading and maths.

Term 4

We are going to be moving on to Australia next term as part of our project.

Other News

We have now made a DVD of our space animations and dances. If you would like to purchase one, please send your child to school with £1:50 in a named envelope. These will be coming home after half term if you have purchased one.

Thank You
