

Pearl Class Newsletter

05.05.17

This week we have begun our Science learning looking at the life cycles of the different animals brought to Hogwarts. To support our understanding of the amphibian life cycle, we spent some time at the pond spotting froglets and fully grown frogs.

To add to our Harry Potter excitement, we had a potions lesson applying our maths measuring skills and our imaginative writing to create magical potions.

In English we have been focusing on improving our descriptive techniques, using precise vocabulary and figurative devices. Next week we will be beginning to write our own Hogwarts inspired stories.

In Maths we have been measuring and drawing angles using Harry Potter magic spells to inspire us.

Home learning grids have gone home with sharing dates for terms 5 and 6. Please can children try to complete at least three of these activities over the two terms.

Please continue to practise spellings, times tables and to read at least 5 times a week.
