

# Pearl Class Newsletter

27.01.17

In English this week we have been applying all of our learning about complex sentences and different types of clauses in our Romulus and Remus stories.

In Maths this week we have been learning about multiples, factors and prime numbers. We have been making a lot of links in our learning with times tables and mental methods of calculation.

Next week we will be learning all about Roman Gladiators and the Colosseum and incorporating this into our writing. In Maths, we will be beginning our learning of fractions, decimals and percentages.

As part of our Science and PSHE, we have begun our Relationships and Sex education by watching the first of three videos about the changes our bodies go through during puberty. We will be continuing this learning next week so be prepared for any questions your children may have!

This week's teacher's awards went to:

Rohan Marshall for excellent use of complex sentences in his story and Ryan Luton for excellent use of fronted adverbials in his Romulus and Remus retelling.

Most housepoints award went to Chloe Howe.

Reminders:

Complete set Mathletics homework, practise spellings, times tables and read at least five times a week.

Homework sharing: Tuesday 8<sup>th</sup> February at 3pm
