

Pearl Class Newsletter

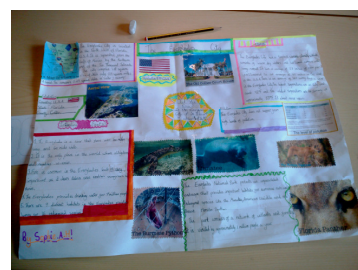

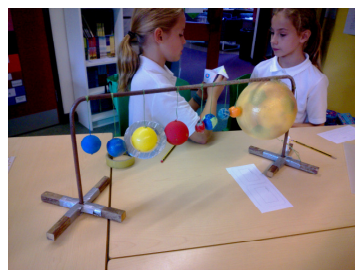

22.09.17

This week, as part of our Geography, we have been learning about renewable and non-renewable energy sources and the advantages and disadvantages of each. In PE, we have begun to tell the story of the Varmints through dance, being creative and innovative!

In English this week, after writing letters to the 'Others', persuading them not to destroy the land where we, the 'Varmints', live, we have spent time planning our own version of the story which we will begin writing next week.

In Maths this week we have been securing our understanding of addition and subtraction methods by solving missing number problems and have moved on to learning or revising long multiplication method. Next week we will secure our understanding of multiplication written methods before moving on to division.

It was lovely to see so many of you at homework share this week, celebrating the wonderful pieces of homework on display. It was great to see such a variety of pieces, presented in many different ways.

Reminders:

- Please make sure children read at least five times a week and record this in the back of the home school book.
- Complete Mathematics homework.
- Our whole class target this year is to make sure we all know all of our times tables – recalling them quickly. Please practise these as often as you can at home.
- Harvest service – Wednesday 27th September.
