Topaz newsletter

Dear All,

It has been a very busy week in Topaz this week! It was lovely to see some of you at Dr. Tom Robson's talk on Monday.

Dr. Tom came to tell us about diamond power on Monday. We were inspired to try to solve our own problems straight away so that we can get diamond power that helps our brain to grow. He talked to us about taking responsibility for the problem. He thought that we were amazing and he loved our classroom. He thought that it was really good for helping our brains to grow. He told us about brain stars (brain cells) and asked us to make some so we did this when we learnt about printing with sticks. Mrs Windmill and Ms Johns have been blown away with the way we have been trying to solve our own problems. Our home learning challenge this week is all about diamond power. This is in the home learning book.

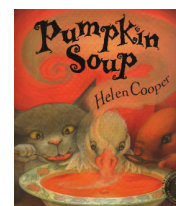

When I grow up I want to be..

We had lots of questions to ask Yvonne from hedgehog rescue. She brought Harry who had lost his mummy. She talked to us about lots of things that we can do to help hedgehogs. Ask the children what they learnt and let us know!

Power for Good

We joined the other children in the school to share what we had learnt about making sure that bullying doesn't happen in our school.

We loved this story about the characters falling out and linked it to bullying and our healthy eating.

Kind regards,

Sally Windmill
