

Topaz News

Fun at Redwood!

It is a wonderful visit and helps us in lots of ways..

Great for developing team work skills!

Keeping fit and healthy!

Developing confidence and feeling good!

We have linked our visit with looking for signs of Spring. As well as Redwood, we have been to visit the school pond and found some frog spawn. We have also been developing our knowledge of Spring flowers. So far we have found primroses and celandines. You can, of course, support this learning when you are out on family walks in the lovely local countryside.

Story telling also continues in Topaz. We have moved beyond Jack and the Beanstalk now and have started to make up our own stories. For home learning this week, practise telling a story at home that the children can share in school next week. They know about story maps so if they want to make one at home, it might help them.

Looking forward to seeing you if you can make journals sharing on Tuesday at 3pm.

Kind regards,

Sally Windmill
