### **Our learning this week...**

#### **Maths**

We have been learning how to use BIDMAS to determine the order of operations. The children have enjoyed the puzzle solving element of it! They have picked up the ideas very quickly.

#### **English**

This week we have been focusing on editing our writing for spelling errors, using a dictionary to check any unknown words. The children worked in pairs to use an 'editing window' to check a sentence at a time for errors.

#### **Science**

We have continued with our electricity unit and have been solving challenges and investigating bulb brightness.

#### **Christmas Performance**

The children have been very excited to be learning four Christmas songs. They have all chosen a role from the nativity and will be dressing up in costumes to make a tableau in the outdoor classroom. I will film all of this and also photograph the children, this will then be put onto our Google Classroom and possibly the website. Hopefully you will enjoy watching this with the children at home.
