Our learning this week...

Maths

Continuing with the fractions unit, we have started to look at ordering and comparing fractions.

Project:

Using our notes from books and experiences from our Wow Day, the children have been busy writing a report on Evacuation during WW2.

Cultural Art Experience:

On Tuesday, we had an artist visit school to teach the children about African Adrinkra patterns and symbols. They used block prints to create their patterned cloth, choosing symbols that meant something to them.
