

Amethyst Class Newsletter

Science- The children had great fun investigating yeast growth this week. They worked together across the classes and used bread yeast, sugar, different temperature of water, test tubes and balloons.

English – The children have started writing their extended narratives with an alternative ending.

Maths – We have been recapping addition and subtraction calculation methods this week and solving multi step problems.

Geography- This week we have been researching different Energy sources in the world and thinking about Energy for the future.

Art –The children have worked carefully to produce their final piece of O’Keefe inspired work (We are hoping to display on parents’ evenings in the year 5/6 art area).

P.E – This term has been Hockey and dance. The children have developed excellent hockey skills and been creating dances in groups.

Coming up next week Learning focused	Way to support at home (home learning)
Science – Review of classification Art – Georgia O’Keeffe Geography- Energy for the future present. Maths- multiplication English – Writing a narrative	Please ensure children are doing their Mathletics, TTRS each week – new learning is set on a Thursday.

Have a lovely weekend!

Key dates coming up:
