

Amethyst Class Newsletter

It has been a great week this week for Amethyst class. Thank you to those who brought in their DT home learning for me to try! It was very kind.

During maths this week, the children learned another new skill! We looked at following the order of operation when faced with a question asking us to do more than one thing! For this, we used "BIDMAS". See if your child can remember what this stands for at home!

During English, the children have started their Fair-Trade leaflets (which they will share with you at the Christmas Fair.) They have put lots of persuasive techniques in their writing and have made me feel very guilty about not being more conscious about what I buy!

In volleyball this week, the children built up their skills. We practiced throwing and catching first and making our partner run for the ball. This made them think about space and communication. We then practiced serving, with the palm of our hands. The children then tried to see how long they could volley the ball for.

In science this term, we are looking at the human body and how it works. We are looking at the role of the heart, For the next two weeks, the children will have some exciting activities to learn all about this in more detail.

Picture from our Life Skills trip.
Children were in randomly selected groups of 4's and spent the afternoon going around different scenarios. They each had to call the "emergency services" for 4 of the scenarios and did this very sensibly.

Home Learning:

Mathletics – Set weekly (Friday – Friday)

TTRS

5 times a week reading (signed at home please).

Key Dates:

Monday 24th November – INSET Day

Friday 28th November – INSET Day

Wednesday 3rd December – Friends Christmas shop

Wednesday 3rd December – Heart dissection workshops (KLB coming in)
