### **Project Maths**

The children have started a real-life project this week, this will continue for the rest of the term. The project is called 'Theme Park Maths' and the children work in pairs to design, plan and budget for a new theme park. They are given a pretend start up loan of 500,000 to do this. So far they have worked out the rides they want, started to plan this into the area given and begun calculating daily costs to run the park. All the children are very excited about this project!

### **Writing**

The children have been writing recounts of their Morfa Bay experiences, choosing two or three activities to write about in detail.

### **Panto**

We have started to look at the end of year pantomime, learning a few songs and thinking about which part we would like to play. All children will have a speaking role and will be very much involved in the whole thing. Scripts should be coming home next week-they will need help to learn their role.

**Home learning:** It is really important that the children keep up their basic English and Maths skills this term. They must be reading 5 times a week and 50 pages minimum and I would like them to do either Timetable Rockstars or Mathletics each week.
