

# Amethyst Class Newsletter

**Our learning this week...**

## **How Can We Make Life Fair?**

### **PHSE-British Values**

This week we have looked at how a democracy works and focused on our own parliament system and the role of different parts.

### **Maths**

This week we have been learning about prime numbers, factors, multiples and square numbers. Make sure you encourage your child to do their Mathletics as this will reinforce the class learning.

### **Art**

The children have created excellent pages in their sketch books, collating all their ideas from their nature study, pattern work and study of the artist William Morris. They are now combining their ideas together to create a final pattern/nature design.
