Our learning this week...

Project – Who has the power?

The children researched renewable energy sources this week, considering how the world's energy needs maybe met in the future.

Maths

We have been solving real life problems this week and had a tricky 'Class Party' challenge to solve.

English

Continuing our learning around semi-colons, this week we looked at examples of when they can be used in a list. The children wrote their own versions of the Twelve days of Christmas, which were amusing and gave opportunity to use semi-colons to separate the 'gifts'.

Home Learning Projects

Yet again, I have been very impressed with the standard of Home Learning and the religious building models are amazing. We have been enjoying looking at the wide range of models built. Below is a selection of the different techniques used:
