

Amethyst Class Newsletter

Our learning this week...

Project – Who has the power?

The election day was very successful and enjoyed by the whole school! The winning party was ChildFare, although all Teams gained quite a pile of votes and enjoyed the experience.

Science/DT

Tomorrow we have our STEM day and will be making movable electrical models that are controlled by computer programs. I will take lots of photos and post on GC and maybe video too!

Maths

We have been learning about divisibility rules, factors and prime numbers this week.

English

The class book (Mortal Engines) is now finished and the children all agreed they have been quite gripped by the sci-fi action packed plot! I would like to show the children the DVD of the story next week. It is a certificate 12 as it contains '*moderate threat*'. As the children know the plot, I think they will be fine with this. If you do not wish your child to view the film please let me know, if I don't hear from you I will assume this is fine.

Poppy Wreath: Many thanks to Ava who laid the Poppy Wreath on behalf of the school at the Remembrance Service.
