

# Amethyst Class

## Newsletter

### **Science Day**

We had a fabulous day investigating and identifying worms- we even tried worm charming! We were part of a South Gloucestershire schools Science event and during the day we logged online to share our results with other schools too.

### **P.E – Outdoor education**

This week the children used a tracking and signs sheet to set a trail for others to follow. They really enjoyed both setting and following routes and worked very well as a team.

### **P.E sports coach sessions Tuesday and Wednesday**

Please can children wear their kit on Tuesday and Wednesday next week (not Thursday) as we have treated Amethyst Class to some extra special sports coach sessions on these days – I think they will really enjoy these well deserved treats!
