

Amethyst Class Newsletter

Our learning this week...

Maths

We have continued with place value but moved on to decimals. Make sure your child finds time to go on to Athletics this weekend, as it will support the place value learning from this week.

English

Some excellent writing this week based on describing settings. Linked to our class book (Floodlands) the children described an abandoned church. I was impressed with their vocabulary and use of personification.

Project-Science

Looking at Darwin's Theory of Natural Selection this week. The Camel Adaptation song was especially popular! Here is the You Tube link if you fancy a look:

P.E

Dance and Volley ball have both started this week and everyone joined in well and all remembered to come in their kit-thank you!

Home Learning and Google Classroom

I have posted a home learning project on Google Classroom for the children to complete over the next 3 weeks (in the assignment section). I have also posted my Meet the Teacher Video and Power point please take time to have a look.

Don't forget to bring water bottles to school there are no water fountains or drinking cups at school at the moment.
