### **Our learning this week...**

#### **How Can We Make Life Fair?**

The children have been enjoying learning about how chocolate is grown and made into chocolate and considering where in the world these stages take place. They have written their own report on Fair Trade and life for farmers in Ghana and Ivory Coast living below the poverty line.

#### **Maths**

We have moved on to negative numbers, ordering and calculating differences whilst crossing the zero. Lots of children have been very good at doing both Mathletics and Times Table Rock Stars at home-well done to those pupils!

#### **Leadership Roles**

It has been an exciting week electing House Captains, Pupil Council reps and Eco-Committee members. Well done to all those children who tried out for these positions. There are Office Assistant interviews next week and Play Pal applications are now in so by next Friday all children that wanted a leadership role will have one.

Creating dances to an African dances.
