Our learning this week...

How Can We Make Life Fair?

Maths

We have moved onto division and the children have been introduced to long division- a method for dividing by a 2 digit number. They have done a lot of fluency to secure this method and many even said they enjoyed doing the calculations!

English

We have been looking at different examples of persuasive writing this week as well as reading our class book, looking at spelling patterns able and ible and focusing on our handwriting.

Science

We have started our Human body unit with a recap on previous knowledge and setting questions for enquiry this term. I was impressed how much they had remembered about where vital organs were (see photos below!).
