### **Our learning this week...**

#### **How Can We Make Life Fair?**

We have launched our project on Fair Trade with a game designed by Christian Aid called 'Cocoa Conundrum'. The children all had different roles in the cocoa trade: farmers (in a Fair Trade community and independent farmers), chocolate Manufactory, supermarkets (2 rival groups), journalists and consumers. The children enjoyed the game and we had a fantastic discussion which helped introduce the idea of Fair Trade.

#### **Maths**

We have begun by learning about place value to millions and solving a range of place value problems.

#### **English**

We have been looking at developing our sentence structure when writing descriptions in our SPAG lessons.

#### **Dates:**

#### **Meet the Teacher Friday 13<sup>th</sup> September**

This is in person from 3.30pm until 4pm. I will make the power point available afterwards so please don't worry if you can't make it. You can enter through the classroom door at 3.30pm and sign in with myself directly.

#### **Home learning**

Mathletics has been set and children have been reminded of TTRS and Mathletics passwords. They have also been asked to cover their home school spelling books by next week.

6th September 2024
