### Our learning this week...

#### Geography and Architecture

We have been learning about Green Energy options and finding out about renewable and non-renewable energy sources. The children have started to think about what they might like to include in their Eco-Home.

#### Maths

The focus this week has been applying the multiplication calculation methods from last week by solving problems. Next week we will be moving into division, it would be a good idea for the children to dust off their Times Table skills with some TTRS this weekend!

#### English

The children have been learning about the features of persuasive texts and starting to plan their own for next week.

#### R.E

We have been looking at the importance of Art in expressing Christian messages and stories. The children studied 10 very different paintings and analysed them.
