

Amethyst Class Newsletter

Our learning this week...

Maths

This week we have been multiplying and dividing by 10, 100 and 1000 including decimals. Mathematics has been set on this topic. I have given out TTRS passwords to children who had lost or forgotten them, the expectation is that all children will go on TTRS several times during a week.

English

We have been writing rescue letters from Zoe in the style of a 'Message in a bottle' We will finish these next week and write up on some 'aged' paper (the children made this today).

Project-Science

The children created a giant timeline of the evolution of life on Earth. Each pair had a different event and they were positioned across the field according to where they would come on Earth's time line. **First life forms** were 100m away, whilst **Human beings** were a mere 20cm from present day!

P.E

Dance and Volley Ball are continuing to prove very popular! Volley Ball skills are progressing well and the dances are starting to take shape.
