Our learning this week...

How Can We Make Life Fair?

Geography

In pairs, the children have chosen one of the cocoa growing countries to research and produce a presentation for the class.

Maths

We have finished our place value unit and we have been rounding numbers to 10, 100, 1000, 10,000 and up to 2 decimal places.

English

The children have started writing narratives based on many of the themes explored in our class book-The Garbage King. They are shaping up quite well and I have enjoyed reading the first sections.

PHSE

The road safety team visited class today with a range of games and activities, all of which helped the children to learn how to keep themselves and others safe on the road.
