Our learning this week...

How Can We Make Life Fair?

Term 1

What a great start to year 6 Amethyst Class have made! It has certainly made me feel better to hear they have been working well for different teachers this week while I've been unwell. They are really enjoying their positions of responsibility – Office Assistants, Play Pals, House Captains, Pupil Council and Eco Council Reps. I look forward to sharing their books with you next term and meeting you for parents evenings.

Home Learning

Next Term's Home learning is now on Google Classroom or here it is below if you prefer not to use GC. I am giving it out early as it is a fun half term project!

Term 2 Home Learning

D/T - Food
technology Term 2 2023

Our D/T for this term in school will be focused on baking skills (producing biscuits and cakes using Fair Trade ingredients to sell at the Christmas Fair). At home I would like you to practise these skills by choosing a product to bake. You could choose to bake from the following items: biscuit, scone, muffin, bread or pastry. Your cooking should use one or more of the following techniques: Mixing a range of ingredients, rubbing fat and flour or kneading a bread or dough. Take a photo of you making the item and of the finished product. Write a short evaluation describing appearance, smell, texture and taste. Enjoy! Please have this task completed by **Friday 24th November**. We will be using lots of the skills above when we bake in school the week starting 27th November, therefore it will be great if you have had some practise at home first.

Share your home learning via Google Classroom, email or by bringing in your photo and evaluation.

20th October 2023
