

# Amethyst Class

## Newsletter

### **Project Maths**

The children are very engaged in their 'Theme Park Maths' and the children are busy working out profits from the first year of opening! They are also starting to pay off part of their 'loan' and are working out how much interest they must pay.

### **Panto**

The children all have their scripts and seem excited about their parts. We will be sending home items the different characters need as props or for costume. We do have some parts for the costumes but it would be great if you could provide the listed clothes and props.

We have collected leaves from the native trees around the school and have sketched and painted large leaves. We will use these as a collage for a forest backdrop.
