Our learning this week...

Final Project Outcome

We are busy working hard towards our final outcome of our 'Is Life Fair?' Project. The children are working towards our stall at the school Christmas Fair. We are hosting a Fair Trade stall where we will be giving out our persuasive Fair Trade leaflets, which we have been writing and designing in class. We will also be selling our Fair Trade bakes, which we have been planning and costing this week and will be baking next week. In addition we are also selling Fair Trade necklaces made by a group of children from the orphanage in Uganda we have made links with.

Maths

We have been learning how to calculate equivalent fractions and how to simplify fractions. We have then been trying to solve real life problems involving fractions. We have also been doing some tricky maths working out the costs of making our cakes and potential profits.

P.E We have been developing basketball skills.
