

Opal Class News

20th December 2024

Well, we have made it through another term and what a busy term it has been. The children have delved into some amazing learning and it is wonderful to see all of their accomplishments through our space project. Sadly, we do need to say goodbye to our Space project and we look forward to our new project in the new year.

This week, the children have been finishing off their learning as well as cramming in an instruction manual, writing about how to survive as a refugee who is fleeing their country. Though we were limited on time, I was amazed at the quality of their writing and their enthusiasm (despite the end of term tiredness). The children have loved applying their Maths learning to create a space theme park, calculating the area and perimeter of each area.

Key dates coming up:

Monday 6th January – Inset Day

Tuesday 7th January – Children return

Friday 9th January – Project launch (wow day). No dressing up/costumes needed.

Coming up next week
Learning focused

When we return, we shall be learning about volume and capacity as well as recapping area and perimeter of compound shapes.

In English, we shall be starting a new narrative, looking at the Myth genre.

We shall be learning about what Christians believe about God.

Continue with reading 5 x a week.
Mathletics and TTRS

Way to support at home (home learning)
