

Amethyst Class Newsletter

Our learning this week....

This Term's project is 'Is Life Fair?' Please see the project overview on the website for more information.

Wow Project Launch: Chocolate Trading Game

The classroom was buzzing with excitement on Thursday as the children were engaged in a range of trading activities. We were playing the 'Chocolate Trading Game' and children were given different roles in the Cocoa bean trade: From farmers 'growing' the beans, to members of the Big Chocolate Company, to owners of a supermarket and not forgetting our chocoholic shoppers! I was impressed with the children's problem solving abilities and also their knack for striking up deals with fellow players!

Maths

We have been learning to read, write and order numbers up to and including a million.

English

We have started our class book –The Garbage King and have begun analysing the characters.

Next week....

Project

Is life fair?

Looking at democracy and other political organisations.

Children will also have the opportunity to run for the role of House Captain.

Maths

Ordering decimal numbers and negative numbers

Science

Classification of organisms.

Reminders.....Please encourage your child to do their Mathematics and go over times tables...quite a few were a bit rusty this week!
