## **Our learning this week...**

### **How Can We Make Life Fair?**

We have launched our project on Fair Trade with a game designed by Christian Aid called 'Cocoa Conundrum'. The children all had different roles in the cocoa trade: farmers (in a Fair Trade community and independent), chocolate Manufactory, supermarkets (2 rival groups), journalists and consumers. The children enjoyed the game and we had a fantastic discussion which helped introduce the idea of Fair Trade.

### **Maths**

We have begun by learning about place value to millions and up to 3 decimal places.

### **English**

The children have been enjoying our class book – The Garbage King- and we have been looking at developing our sentence structure when writing descriptions of scenes from the first few chapters.
