Newsletter

Our learning this week...

English

We have started to identify features of the persuasive genre of writing. The children have begun planning ideas for writing a persuasive argument for or against School Uniform.

Maths

Our focus for the next 2 weeks is properties of number. The children have been learning divisibility rules and using these to solve problems involving multiples, factors and prime numbers.

Life Bus (PHSE, Science and Computing)

This week we have been visited by the Life Bus. Our learning this week has been linked to our session in the bus. We have been learning about the impact of illegal and legal drugs on the body, how to make informed choices in our lives and how to deal with peer pressure. The children have used their computer skills to create a media presentation (Using Textease Movie), which describes the impact on the body of an illegal or legal drug.

Home Learning

Your child will be bringing home a new home learning grid this evening. You will notice that this has been updated in response to changes to the curriculum and to parental feedback at the Parent Council. Home learning should be brought into school on the 12th December, where it will be shared in class and also with Pearl class. There will not be any parent share of home learning this term. In response to parent feedback we have decided to just share home learning in class this term and with parents next term. Continuing to alternate through the rest of the year.
