Our learning this week...

Welcome Back

The children have returned to school with a positive attitude and adapted so quickly to new routines and rules. They have really enjoyed being able to socialise with each other and I have been impressed by their enthusiasm!

Maths

We have started the term by learning about place value and will be continuing to read, write and sequence numbers to 10,000,000 next week.

English

We have started our class book Floodlands and all the children seem to be enjoying the dramatic start to the book.

Project

We have launched our project with a science-based activity. The children had to create their own animals using body parts from different creatures. They then had to think about where these creatures might live, what they might eat and how they have adapted to their habitat.
